

SOLAR PV SOLUTIONS

A. Grid-Tied Solar Solution

This is ideal for customers with heavy loads during the day i.e. day-time industry.

B. Off-Grid Solutions

Specifically designed for customers with no access to the grid who are heavily dependent on Diesel Generators for power.

C. Hybrid Solar Solutions

The system comes with a back up battery storage solution (Lithium Ion Polymer, Supercapacitors, Lead Acid etc.) which can enormously reduce households/industry's dependency on the grid i.e. by up to 95%."

OUR STATISTICS

#1

East Africa's Top 1 Solar EPC Company

102Nos

Total No of Sites

33.8MW

Live projects in East Africa

32.5MW

Projects under Execution

66.3MW

Total Portfolio

578kW

Our Average Solar Plant Size

45%

Market Share achieved in C&L Sector

100%

FINANCING AVAILABLE FOR ALL SOLUTIONS

OUR AWARDS

- Best Solar Project of the year
- Best Engineering Team of the Year
- Best Solar Company of the Year
- Best sales team of the year
- Best Solar Company MEA 2022
- Navpreet Singh (SSL General Manager) 40 under 40 champion award

PROJECTS EXECUTED

CARTON MANUFACTURERS

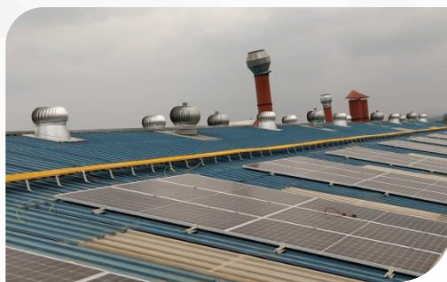

375
kW Capacity

560,000
kWh produced yearly

14,000,000
Annual Savings (Kshs)

FRIENDSHIP CONTAINERS

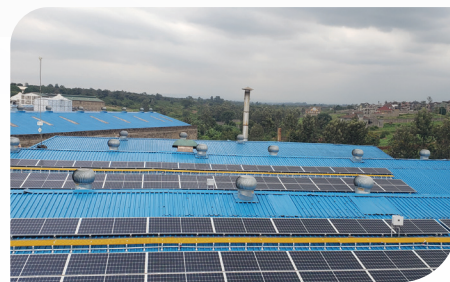

1345
kW Capacity

562,500
kWh produced yearly
