

Spenomatic Steam Accessories & Instrumentation

We offer a wide range of solutions and services to help bring down the cost of steam throughout the process.

With our instrumentation solutions we help industries achieve better throughput, and reduced process time, resulting in better productivity and reduced cost of operation, thus significantly improving overall efficiency of the system. We offer end to end solutions from Steam Generation to Condensate recovery.

PRODUCT RANGE

TRAPS

Thermodynamic Trap

Float Trap

Thermostatic Trap

Compact Trap

PIPELINE ACCESSORIES

Strainer

Disc Check Valve

Moisture Separator

Safety Valve

MECHANICAL PRESSURE REDUCING VALVE & CONTROL VALVE

Pilot Operated Pressure Reducing Valve

Self-operated Pressure Regulators

2 Way Control Valve

3 Way Control Valve

ISOLATION VALVES

Bellow Seal Valve

Gland Pack Valve

Ball Valve

FLOW METERS

Vortex Flow Meter

Electromagnetic
Water Flow Meter

Fuel Flow Meter

We also offer
PID
Controllers,
TIC, Pressure
Transmitter, ph
Meter,
Magnetic Level
Gauge etc.

CONDENSATE RECOVERY

Condensate
Pump Station

Condensate
Pump

SERVICES

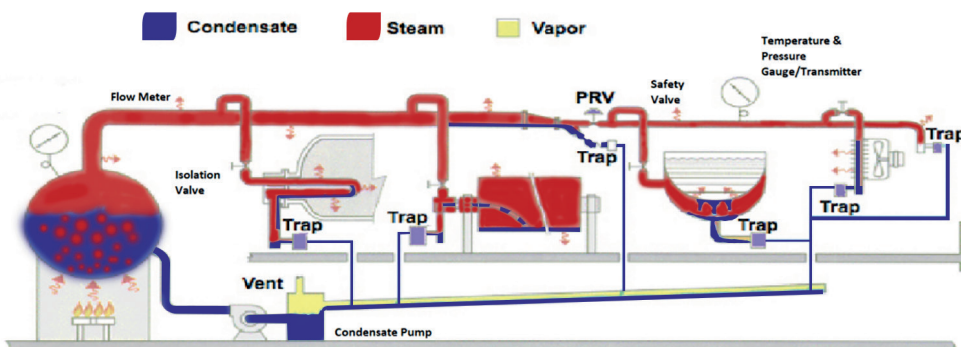

Design & Piping Consultancy for Steam, Condensate & Thermal oil line for all the new / greenfield & brownfield projects. In our endeavour to support our customer, we design according to latest industrial norms which helps them produce world class products at competitive costs. We cover the following in our Services :-

- Selection of Right Heating System
- Steam, Thermic Fluid, Condensate, Water & Air piping
- Design of condensate recovery system, Pressure Reducing Station.
- Trap selection and sizing
- Insulation & Cladding
- Waste heat recovery systems
- 24hr support available

INDUSTRIES SERVED

PRODUCT APPLICATION

Made to
international
standards eg
DIN, ASME, etc.
