

# Spenomatic Steam Accessories & Instrumentation

We offer a wide range of solutions and services to help bring down the cost of steam throughout the process.

With our instrumentation solutions we help industries achieve better throughput, and reduced process time, resulting in better productivity and reduced cost of operation, thus significantly improving overall efficiency of the system. We offer end to end solutions from Steam Generation to Condensate recovery.

## PRODUCT RANGE

### TRAPS

Thermodynamic Trap

Float Trap

Thermostatic Trap

Compact Trap

### PIPELINE ACCESSORIES

Strainer

Disc Check Valve

Moisture Separator

Safety Valve

### MECHANICAL PRESSURE REDUCING VALVE & CONTROL VALVE

Pilot Operated Pressure Reducing Valve

Self-operated Pressure Regulators

2 Way Control Valve

3 Way Control Valve

### ISOLATION VALVES

Bellow Seal Valve

Gland Pack Valve

Ball Valve

## FLOW METERS

Vortex Flow Meter

Electromagnetic Water Flow Meter

Fuel Flow Meter

We also offer  
PID  
Controllers,  
TIC, Pressure  
Transmitter, ph  
Meter,  
Magnetic Level  
Gauge etc.

## CONDENSATE RECOVERY

Condensate Pump Station

Condensate Pump

## SERVICES

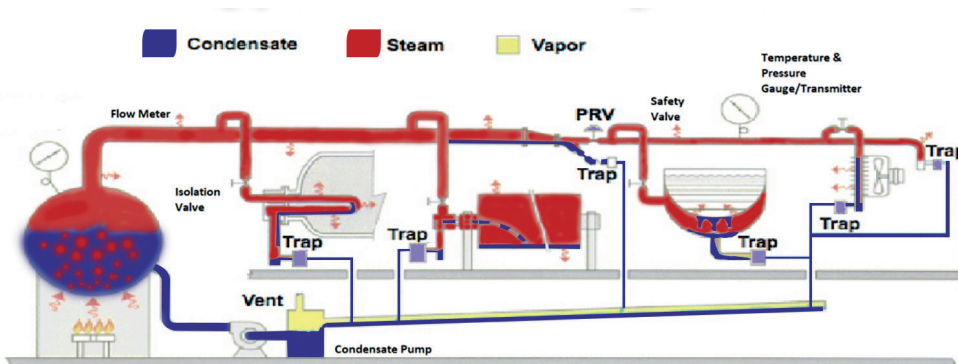

Design & Piping Consultancy for Steam, Condensate & Thermal oil line for all the new / greenfield & brownfield projects. In our endeavour to support our customer, we design according to latest industrial norms which helps them produce world class products at competitive costs. We cover the following in our Services :-

- Selection of Right Heating System
- Steam, Thermic Fluid, Condensate, Water & Air piping
- Design of condensate recovery system, Pressure Reducing Station.
- Trap selection and sizing
- Insulation & Cladding
- Waste heat recovery systems
- 24hr support available

## INDUSTRIES SERVED

## PRODUCT APPLICATION

Made to  
international  
standards eg  
DIN, ASME, etc.
